Objective

Motivated fresher with strong skills in front-end and back-end web development (HTML, CSS, JavaScript, Bootstrap, React, Node.js, Express.js, MongoDB). Skilled in designing responsive interfaces and building scalable full-stack applications. Seeking an entry-level role to leverage technical expertise and contribute to impactful projects while further developing skills in a dynamic environment.

Education

Bhartiya Institute of Engineering and Technology, Sikar <i>Bachelors of Technology in the branch of Computer Science</i>	2020 - 2024 <i>GPA: 4.0/4.0</i>
Indian Public Sr. Sec. School Fatehpur Sekhawati <i>12th standard</i>	2018 - 2020 <i>69.00%</i>
Shri S.K Deora School, Fatehpur Sekhawati <i>10th Standard</i>	2014 - 2018 <i>57.83%</i>

Technical Skills

Languages/Database: HTML, CSS, JavaScript
Frameworks and Libraries : React.js, Bootstrap, Node.js
Database Management: MongoDB
Tools: Git, GitHub, VS Code, Figma

Experience

Techqunba Solutions <i>Front-end developer intern</i>	August 2025 – September 2025 <i>Jaipur, Rajasthan</i>
---	---

- Gained hands-on experience in building responsive and interactive user interfaces using HTML, CSS, JavaScript, and React.js.
- Worked on live projects, applying industry best practices such as version control with Git/GitHub and code structuring for scalability.
- Integrated REST APIs into front-end applications for dynamic data rendering and state management.

Zeetron Networks <i>MERN Stack Internship</i>	Aug 2024 – Dec 2024 <i>Jaipur, Rajasthan</i>
---	--

- Developed reusable, scalable front-end components using React.js, enhancing code maintainability and ensuring a seamless user experience across devices.
- Collaborated with backend teams to integrate RESTful APIs into Node.js applications, enabling real-time data processing and efficient storage in MongoDB.
- Designed and built dynamic, full-stack web applications utilizing the MERN stack (MongoDB, Express.js, React.js, Node.js) to meet project requirements and ensure high performance.

Integrated Institute of Hardware and Technology <i>MERN Stack Training</i>	May 2024 – Aug 2024 <i>Jaipur, Rajasthan</i>
--	--

- Successfully completed intensive training in the MERN Stack (MongoDB, Express.js, React.js, Node.js), acquiring hands-on experience in building and deploying full-stack web applications.
- Developed dynamic and responsive front-end interfaces using React.js, implementing state management with Context API to enhance application performance and scalability.
- Designed and optimized database schemas with MongoDB, ensuring efficient data storage and retrieval for application functionality.

Projects

FoodFleet <i>VS Code</i>	Link
-----------------------------------	----------------------

- Utilized React's component-based architecture to ensure reusability and modularity, improving code efficiency and scalability. Utilized React's component-based architecture to ensure reusability and modularity, improving code efficiency and scalability.
- Developed key components such as Navbar, Menu Page, Cart, and Checkout to enhance user interface functionality.
- Leveraged React Hooks, including useState and useEffect, to manage state dynamically and ensure seamless application performance.

Preffered Resorts <i>VS Code</i>	Link
---	----------------------

- Implemented real-time features for room availability, booking, and management, enhancing user interaction and efficiency.
- Designed and optimized a mobile-responsive website, ensuring a seamless user experience across all devices.
- Utilized MongoDB for effective management and storage of hotel room details, bookings, and user information, ensuring data consistency and accessibility.
